

The most complete and cutting-edge telehealth platform.

Reduces provider burnout, integrates with all EMR and EHR systems, and services any medical use case, anywhere, anytime.

A screenshot of a web browser displaying the TrustVideo user interface. The browser's address bar shows 'trustvideo.com'. The interface includes a search bar at the top with the text 'Search by keywords or contact..'. Below the search bar, a notification reads 'Welcome, Dr. Ruben Rosser! You have 4 appointments for today'. A green banner below that says 'You are available for on demand sessions.' The main content area features two tabs: 'My appointments' and 'Requests' (with a red notification badge containing the number '3'). At the bottom, there are options for 'Schedule' and 'Calendar'. On the left side, a sidebar menu contains the TrustVideo logo and navigation items: 'TrustVideo', 'My appointments', 'Chat', 'Participants', 'Providers', and 'Dispatcher'.

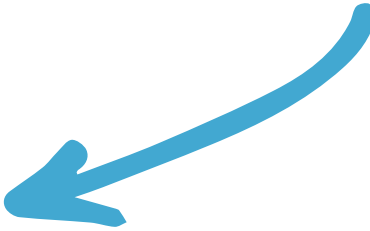

Scale your healthcare organization at no extra cost

With TrustVideo you can bring quality telemedicine care directly
to your patients in a matter of days.

We are facilitating more than 3.000.000 minutes of HIPAA-compliant telehealth sessions each month.

Interoperability

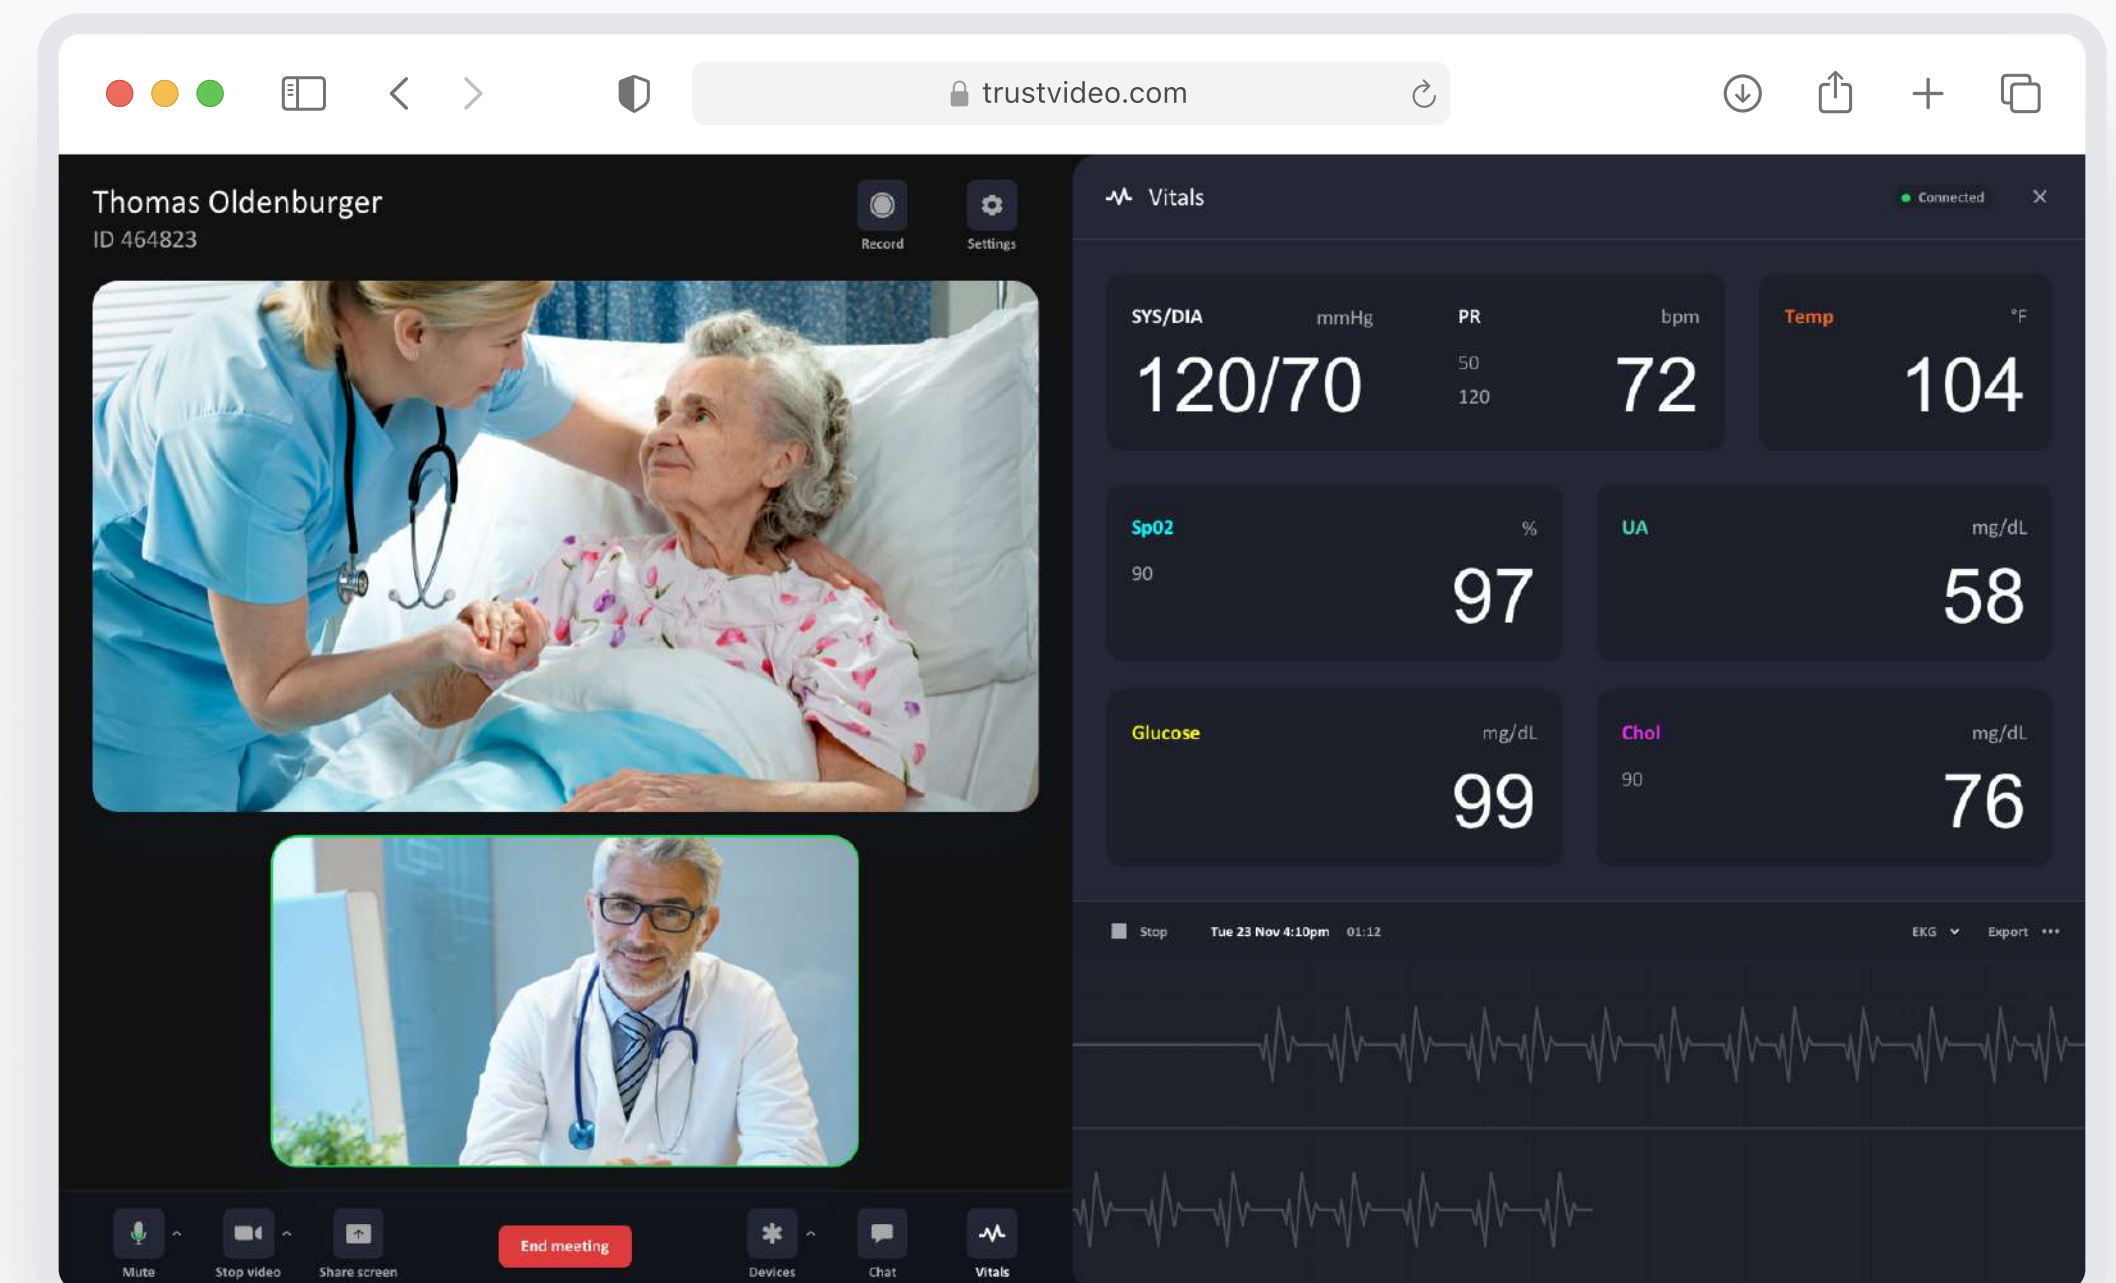

Integrate telehealth into your existing workflows

Serve any use case with one virtual care platform that complements current workflows.

Connect with medical devices

Provide advanced virtual care and remote examinations in real-time from anywhere in the world by connecting medical devices and equipment.

- 🔗 Capture and share medical device data
- 📄 Exchange documents and medical images
- 📶 Real-time virtual recordings
- ✓ Completely device and browser agnostic

 Built with the strictest HIPAA-compliance standards

Connect with any EHR system

With over 500 bidirectional data connections, TrustVideo can connect to every EHR system and serve any medical use case.

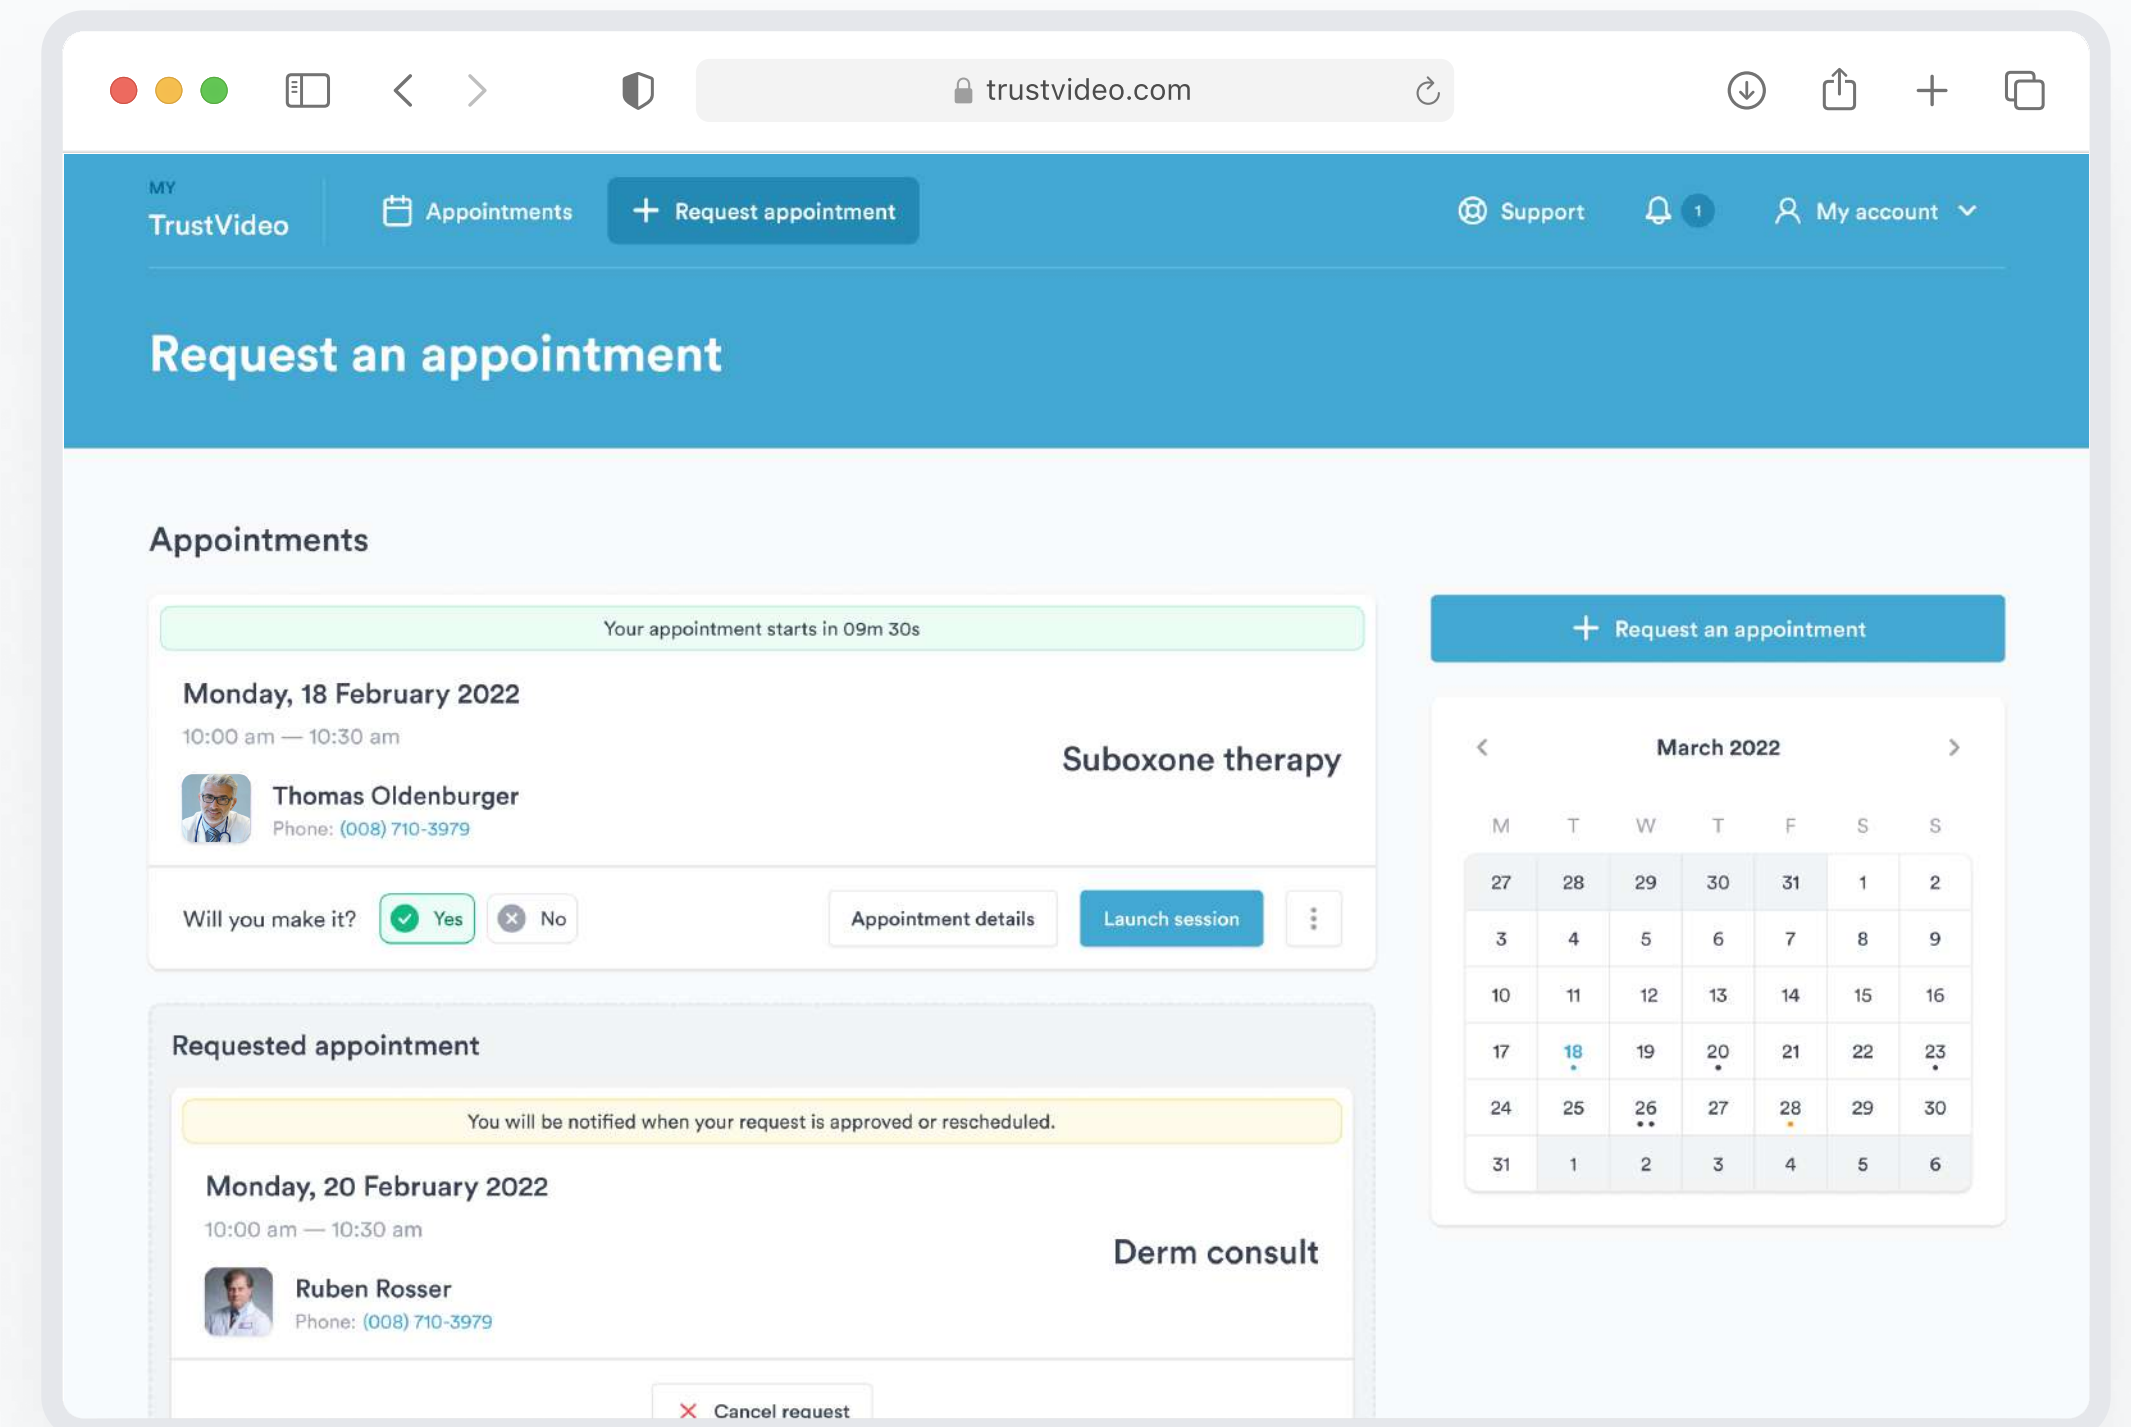

Scalability

Increase patient acquisition and boost revenue

TrustVideo allows all providers in a healthcare system to access the platform so that more patients can be seen.

Providers serve more patients

-  Unlimited patients and providers
-  Automated workflows
-  Self-scheduling booking environment
-  Dispatcher and scheduler roles
-  Personalized patient dashboard

Simplification & Benefits

Reduce provider burnout and workload with AI.

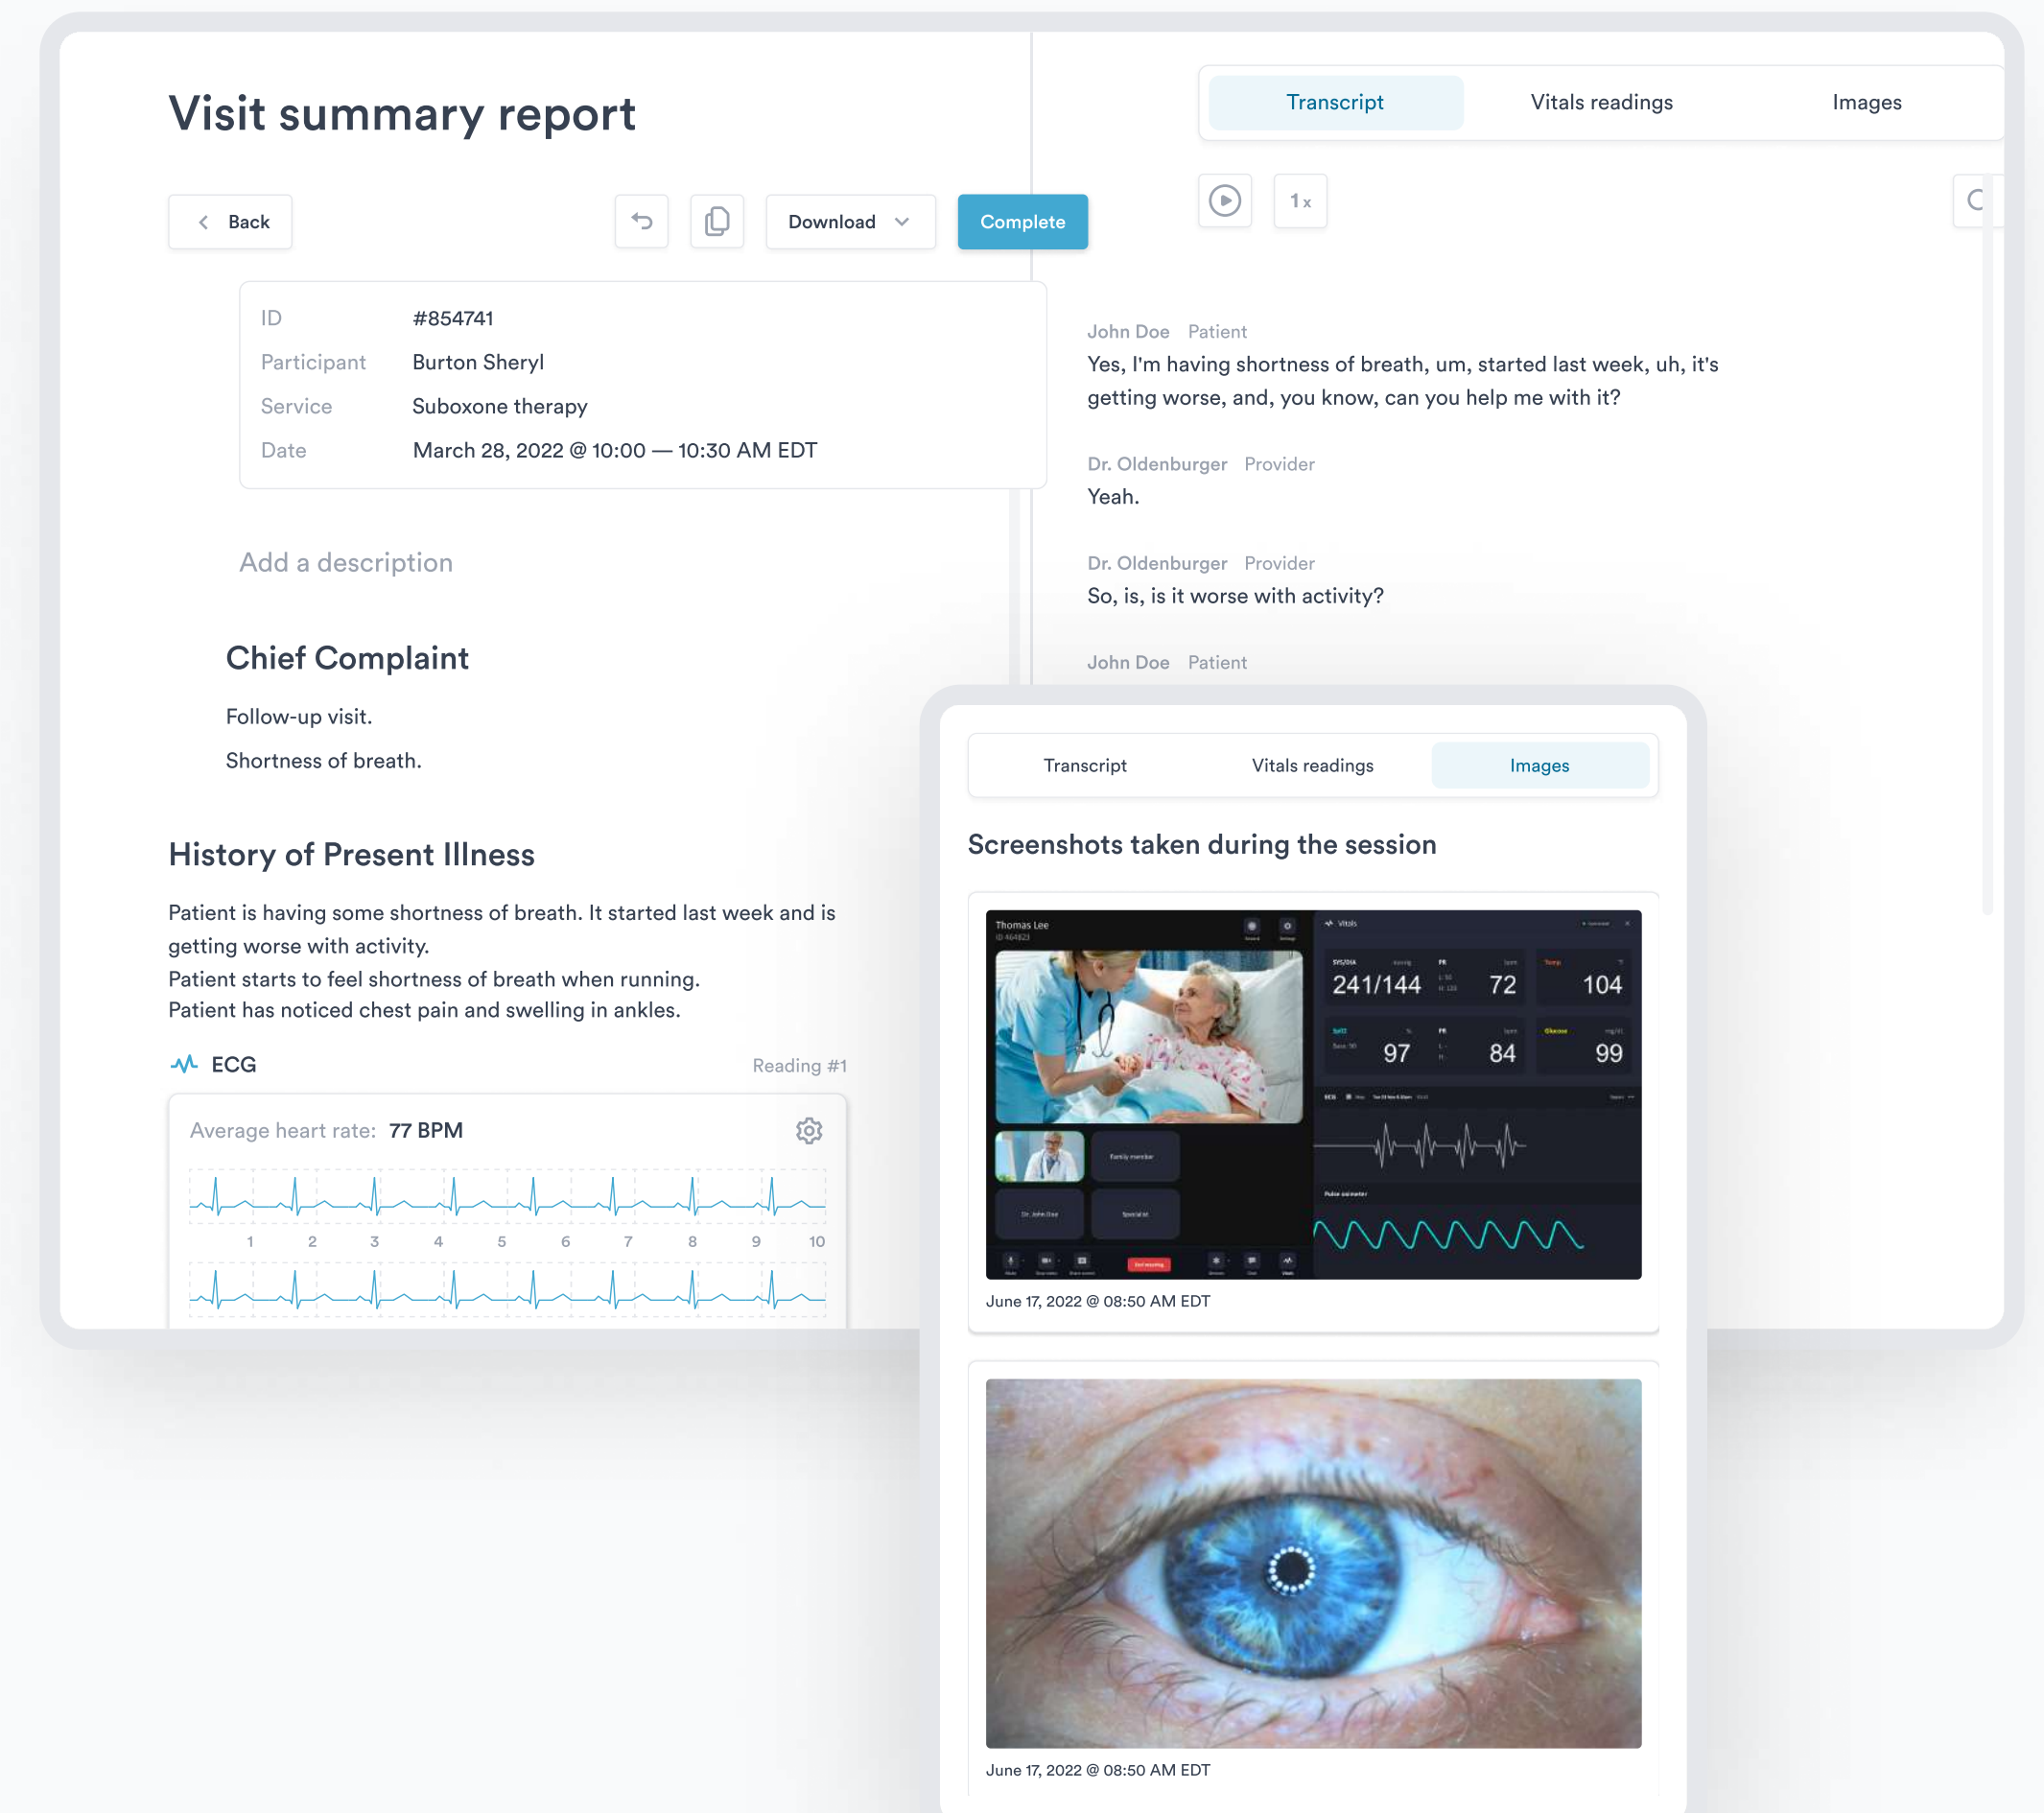

Focus on what really matters and generate visit summary reports that meet international standards, fully automated.

Meaningful encounters

- 🧠 See and interpret facial expressions to emotionally connect
- 👥 Everything you need to make a full diagnosis
- 🏥 Generate Visit Summary Reports covering all complaints

The future of healthcare is here

- ✓ Combat provider burnout and workload
- ✓ Systematically capture critical information
- ✓ Integrate with Electronic Health Records
- ✓ Finish encounters 30% faster
- ✓ Speed up the billing process

Message

Patient self-scheduling with a simple booking flow

Connect patients to the right provider at the right time and reduce no-shows and cancellations by giving patients their own personal environment to book and manage appointments.

- ✓ Save time scheduling
- ✓ Reduce incoming phone calls
- ✓ Reduce no-shows and cancellations

MyChart integration

Patients can use their existing MyChart login to schedule, request and launch virtual visits.

Dispatcher

Assign and approve incoming on demand and scheduled requests
